McFarland's BURGLAR and FIRE PROOF SAFES!

THE undersigned would respectfully call the attention of the public to the above unequalled safeguard of property—proof against the devouring element of fire as well as the most skillful burglar. In SIX CHAMPS he WON FIRST and BANK PREMIUMS over, should only say to those who need the proofs of, you will be convinced of their superiority over all others in use.

Our business is done on a plain, straight forward way, without resorting to humbug or large talk.

Below is one of the many testimonials we are daily receiving from all parts of the country, which speaks for itself. Messrs. Pond & Nichols's Old Stone warehouse, directly under the Pearl-st House and was totally consumed in that great fire of August last.

New York, Aug 29, 1853

Messrs. Wm. McFarland & Co.

Gent—It affords us pleasure to inform you that the Iron Clad Burglar Proof Safe we purchased of you proved a most valuable depository for our books and papers at the disastrous fire of the Pearl-st House last week. In a word it performed its duty in every respect. Although it was exposed to the most intense heat for several hours, and fell with the ruins of the building into the cellar, we found on opening the safe that its contents were preserved entirely from the action of the fire. We take pleasure in recommending your safes to all persons in want of a reliable article, as we consider them perfectly fire proof.

Yours, &c.

The night-bird alone, through which we have prevailed upon the sweet Arts well to sing for the night, have poured out their soul in full harmonies from the cavern's depths, and has filled the whole scene with various, and, to us, strange notes. The desert wilderness to us garden is the image of such a people. The great thought which rules its greatness is its first impression, the idea of sameness in each of its parts. And when we were working our way through fields without produce, and among immense rocks piled together in mysterious confusion, it seemed sometimes to me, as if we were carried back, by a transposition of places and age, into the primitive work-shop of the original creation. House-keepers, look at this!

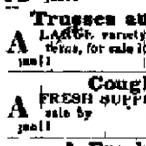
Admirable Invention!

PATENT SELF HEATING
SMOOTHING IRON!



MANY important improvements have been made since the beginning of the present century, relieving and facilitating the labor of man by machinery and others in a more simple spirit, but females have been strictly neglected until the introduction of the *Patent Self Heating Smoothing Iron*, which will relieve them, in a very great degree, from the excessive and fatiguing labor in *Ironing*, besides being a great saving of time and expense. This Iron combines economy, convenience, saving of labor, and dispatch; one cent's worth of dry charcoal supplies fuel for a whole day's constant ironing. Hard wood coal from the stove will answer the same purpose. It can be used in any room or in the open air. Hatters' and Tailors' Irons are constructed upon the same principle, and plainers equally as perfectly.

BROKEN Cash, Glass, Earthen Ware, and Fancy Articles of every description repaired and mended strong as ever, as long as before broken, without injury or disappearance.

This Cement, which has been proved to be of great strength, will be very particularly useful in every family, in the simple manner of its application is also a recommendation. The adhesive property which it possesses is so wonderful that many things will rather break in a fresh place than where they have been mended with it. The variety of purposes for which it may be used are so numerous that it would be difficult to relate them. Its address is invisible. Glass, China, &c., is extinguished, so cord as a degree of heat effecting it, and at the joints are scarcely perceptible articles of this kind may be made useful for years, which otherwise would have been cast away.

THE GREATEST MEDICAL DISCOVERY OF THE AGE!

MR. KENNEDY, of Roxbury, has discovered a sure and safe, remedy in plasters weeds a remedy that cures EVERY KIND OF HUMOR, from the worst Scrofula down to a common Pimple.—He has tried it in over one hundred cases and never failed except in two cases, both of them obstinate.—He has now in his possession over two hundred certificates of its efficacy, all within the circle of Boston.

Two bottles are warranted to cure a running sore mouth.

One to three bottles will clear the worst kind of pimples on the face.

Two or three bottles will clear the system of blotches.

Two bottles are warranted to cure the worst case of scrofula.

Two bottles are warranted to cure running of the ears and blotches among the hair.

Four to six bottles are warranted to cure most ulcers on the eyes.

Two bottles are warranted to cure rumning of the ears and blotches among the hair.

Four to six bottles are warranted to cure most ulcers on the eyes.

One bottle will cure scald, eruptions of the skin.

Two or three bottles are warranted to cure the worst case of ringworm.

Two or three bottles are warranted to cure the most desperate cases of rheumatism.

Three or four bottles are warranted to cure the worst case of salt rheum.

Five to eight bottles will cure the very worst case of scrofula.

A Benefit is always experienced from the first bottle, and a perfect cure was effected when the above quantity is taken.

Nothing looks so unpleasant as those who have in vain tried all the wonderful medicines of the day, so that a common cure, even for the piles, cures and along with it one with double cures, Kennedy's humor in the system; yet it may almost be true. If you have a humor it has to start. There are pimples, boils, humors on the about 2 until the system cures, but not yours. I predict over a thousand bottles of it in the vicinity of Boston I know it will be used in every house. I have already sold some of the greatest consequence here in Roxbury. I gave it to children 2 years old to 12 years old and many. I have seen poor, pale, worms looking children, whose flesh was as tight and healthy, restored to a perfect state of health by a few bottles.

To those who are subject to a sick headache, one bottle will always cure it. It gives great relief in catarrh and thickness. Some who have taken it three times a week for years and have never regulated to it. Where the body is costive it acts quite easy but where there is any derangement of the functions of nature, it decides at once and regular bodily, but you must be sure and get the genuine as worthless stuff appears in fresh boards and in new bottles, and never had result from it—but the genuine. I want that feeling of gone you will feel you feel like a new person. I can say of it the most extraordinary recommendations of all that ever was tendered a medicine.

CHERRY PECTORAL,

For the rapid cure of

COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

THIS remedy has won its way into such universal favor, and produced such entire cures, that it is not only unnecessary to recommend it to any community, but wherever it has been employed. As its virtues have become known, the demand for it has increased, and its use extended, until it is now considered the best remedy for the cure of all pulmonary complaints that can be obtained.

Although we do not claim for it the wonderful cures that we do for our Sarsaparilla, we have the most unbounded confidence in its power to cure all diseases of the Throat, Lungs, and Pulmonary Organs, which are not beyond the reach of medicine, and we know that it has performed cures which seem almost miraculous. Many of these have been publicly known in every section of the country, and are familiar to most of our readers. Even those who have resisted the evidence of their own senses, have been forced to acknowledge its power to cure the most dangerous diseases of the Throat and Lungs, when all other remedies had failed.

Where the disease has become settled in the system, and has fastened upon the vitals, we cannot promise a perfect cure; but we do confidently assert that no other remedy can be found which will relieve so many cases of pain and disease, or save so many lives. Even in advanced stages of Consumption, where the patient has been brought apparently to the verge of the grave, and all other remedies have been exhausted in vain, the Cherry Pectoral will frequently check the disease, and restore the patient to health, when everything else has failed.

Having had occasion to observe some cases of ruptured with Dr. Foster, who has suffered from a double inguinal rupture of considerable magnitude, for the last 17 years, for which he has worn Foster's Patent Truss, I have no hesitation in recommending him to the afflicted as a person who is fully competent to fit the Truss in such cases, and I believe that Mr. Foster is entitled to the credit of having invented the best Truss now in use for the cure of rupture.
